Expression of Interest

For Selection of Business Associate for developing

“Visitor Log Digital Application”

KEL invites Expression of Interest (EOI) from IT/ITES Companies for development of a Software and required Hardware infrastructure for “VISITOR LOG DIGITAL APPLICATION” useful for Institutions to keep a clear track record of visitors.

About KEL :-

KEL is a Multi-Product Engineering Company with 50 plus years of experience and expertise in Engineering Industry, and now proudly serving an enormous client base including Defense, Irrigation and Power Projects, State Electricity Boards, Indian Railways and the General Public. The Company is a Public Sector Undertaking fully owned by Govt. of Kerala has four state-of-the-art manufacturing units spread across Kerala and has a pan India presence with its Sales and Service unit in all major metros and selected cities.

Objective:

In the wake of the spreading of harmful pandemic, keeping a “Visitor Log” with record of visitor's body temperature has become a mandatory protocol for all offices/ business establishments /shops. Presently the data logging is done manually by writing the details in a register kept at the entrance of the office / shops. There is lot of errors creeping into the records inadvertently as well as intentionally. Further, once the written down data is passed to the authorities, it is a herculean task to enter the data into computer for further analysis and identification of Covid positives, primary contacts, secondary contacts, etc.

In this scenario, KEL proposes to bring this data logging on to a digital platform and help the society by gathering accurate information available online for ease of access, analysis and follow the protocol set as per the guidelines.

This would reduce the time required to reach out to the contacts and thus help in time and efficient management during this crisis.

Required Features of the Software:

- The App must be downloaded from the Play store
- The software must be compatible with all digital platforms (iOS, Android etc.)
- Information of the Visitor must be entered and saved in to the App like Name, Mobile Number & Address. Efficient and automated data collection methods can be proposed by the bidder.
- The data must be available online in the back end and can be accessed by the Business Owner.
- Search Option must be available to filter the data by using Mobile No./Name/Date & Time using any one of the above said header
- Business owners can send promos/updates/notice to their customers at one click which could be an effective marketing tool to stay connected with the customers.
- The app must be created with high security and must have enough server base to handle massive data loads.

Submission of EoI

The bidder must provide the following documents to prove the credential of the Company.

- Company registration details
- Experience in similar projects / apps made available in play store
- Financial Details

EoI with the details mentioned above shall be submitted in a sealed cover on or before 12.08.2020 3 pm to the Manager (Projects), 7th Floor, Housing Board Office Complex, Panampilly Nagar, Kochi – 682 036.
